8 of 9 review helpful Brilliant Bravo By antistat This is the best specialized encyclopedia I ve ever come across on any subject My congratulations to Mr Tabachnick I only wish he could have published it years earlier This book has inspired me to reread Seven Pillars once again There is virtually no important event or reference in Lawrence s life and work that can t be illuminated by this encyclopedia This encyclopedia the first work of its kind includes more than 800 alphabetically arranged entries on subjects related to Lawrence and his works Covered are such topics as Lawrence s knowledge of Islam the details of his military campaigns his legacy in film and popular culture his family members and acquaintances his biographers and important book dealers collectors and scholars interested in his writings Most of the entries mention works for further read First of its kind Tabachnick s encyclopedia extensively chronicles the life of Lawrence of Arabia hellip Because of the popularity of the subject and the uniqueness of this work fans researchers and educators would find it to be an incredible resource S
