Everything You Need to Know about Animals: A First Encyclopedia for Budding Zoologists:

0 of 0 review helpful Very accessible By Penny Thoughtful This is an excellent brightly illustrated science book with highly accessible text that will appeal to children with a wide variety of different interests I would be interested to read

a review by a biologist but it seems accurate to me Everything You Need to Know about Animals a spin off on the all encompassing reference Everything You Need to Know and Everything You Need to Know about Science delivers exactly what its title promises Arranged thematically into 5 core topics that explore the huge variety in the animal kingdom how they get around how they eat animal senses and reproduction Readers imaginations will be fired on every page with this perfect one volume encyc Idquo The book is rich in ideas for linking information about animals with other areas of the curriculum T he many interdisciplinary ideas and the inclusion of opportunities for inquiry using pictures are ideal for grades Pre K through grade 3
