4 of 4 review helpful good easy read about different naval aircraft By Michael Dobey This is one of the later books out there that covers various naval aircraft and gives a brief usually a page to two page read about a certain aircraft Of course this book is not complete because they would have to do more than one volume to cover every naval aircraft In fact the u s navy alone had many planes that they only had a few of Features a directory of over 120 aircraft with 500 identification photographs
