By DK Publishing : First Space Encyclopedia (DK First Reference) anaximander was the author of the first surviving lines of western philosophy he speculated and argued about quot;the boundlessquot; as the origin of all that is he also first first n 1 the ordinal number matching the number one in a series 2 the one coming occurring or ranking before or above all others 3 the beginning First Space Encyclopedia (DK First Reference):

92 of 96 review helpful Slightly Disappointing By Ursula K Raphael After reading the product description and the other reviews I was expecting this book to be centered around the solar system When in fact the section on the solar system is one of the smallest sections and doesn t really go into much detail about the planets least of all other space

objects like Ceres Eris the Kuiper Belt etc The title Reach for the stars in the updated First Space Encyclopedia Explore the planets and discover amazing facts about nearby galaxies A delightful first reference book about space for young astronomers First Space Encyclopedia takes readers on a journey through the universe from the beginning of space itself to current space technology Find out what it takes to be an astronaut what it is like to live in space and what they take with them in
