By Felicity Brooks : The Usborne Internet-Linked First Encyclopedia of Our World welcome to usborne quicklinks providing links to websites that enhance usborne books mission statement of usborne books and more the future of our world depends on the education of our children usborne books and more delivers educational excellence one The Usborne Internet-Linked First Encyclopedia of Our World:

1 of 1 review helpful My daughter loves it By MEME Usborne books are amazing If you are a homeschooler then you absolutely must have these in your collection I love them and I have quite a few we always find ourselves referencing

these books for extra facts on something we are learning about in school I have even used one of the history and science books as full curriculum The Usborne "First" books are written Why is night dark What is snow How do earthquakes happen What's under the sea These and hundreds of other questions about the world around us are answered in this charming book Simple easy to read text and lively detailed illustrations introduce the basic concepts of geography to young readers
